The directory panels are locked shut with two quarter-turn, tamper-resistant fasteners located at the top and bottom of each panel. Before mounting, the panels should be opened using the key tool furnished. Turn each fastener one-quarter turn counter-clockwise to open. (See Figure 1).

Locate the directories in a convenient area of the lobby. The directories should be adjacent to or above the entrance directory.

Secure to wall surface through mounting holes in sides of frame, using mounting screws supplied in envelope assembly. (See Figure 2).

Tenant Name Listing (Temporary)

Until the building is permanently occupied, (all tenant areas filled), the ruled sheet behind the name panel lens may be used to list tenant names.

To remove sheet, lift off on each end.

Tenant Name Listing (Permanent)

When the building is permanently occupied, (all tenant areas filled), individual names can be applied to the plastic name plates supplied with each directory panel with a pressure adhesive plastic tape (Dymo Label Maker Type) or can be engraved locally for permanent use.

Insert name plates into panel by bending slightly and positioning the ends into the channels on sides of panel.

Insert bottom name first and work toward top for ease in installation. (See Figure 2).
