NuTone Central Cleaning Systems – an important part of Total Indoor Air Quality...solutions for today's lifestyles!

CENTRAL CLEANING SYSTEMS

Cylonic Performance Power Unit

Enjoy the convenient cyclonic performance of Central Cleaning in this bagless power unit – no replacement bags required.

Strong performance with a 3-stage motor Ametek motor. Ideal for medium to large size homes, this unit easily cleans homes up to 3,500 sq. ft.

High density, permanent dual cloth filter 'inflates' with the air flow of the power unit, trapping dirt and dust to prevent even minute particles from re-entering the living environment. Soil releases from filter into lower pail each time power unit is turned off. To empty dirt cannister – needed only about twice a year – just unlatch lower cannister, empty, and replace.

FEATURES:

- Powerful 3-stage bypass motor
- Cylonic cleaning action with permanent self-cleaning, dual layer cloth filter
- 6-gallon dirt receptacle capacity
- CSA Listed
- Two Year Warranty

SPECIFICATIONS:

Motors	3-Stage Bypass
