

Gable Fan

MODEL: GF-900N

DESCRIPTION

- Pulls hot air out of attics automatically. Exhausts moisture and condensation that can cause premature deterioration of attic insulation, shingles, roof, rafters, wiring and outside paint.
- Mount behind existing gable louver, or use with NuTone model GFL-900 louver.
- Automatic, adjustable thermostat turns fan on at temperature settings from 60 degrees F to 120 degrees F.

DESIGN FEATURES

Air Delivery: 900 CFM at .03" wg. S.P. (When used with GFL-900 louver)

Inlet Air Requirements:

3 sq. ft.

Motor Mounting

Galvanized steel, .028" thick. 14 3/4" diameter by 5 3/4" deep. Provided with mounting brackets.

Motor:

Shaded Pole type, thermally protected.

Blade:

Galvanized steel, 14" diameter.

Thermostat:

Adjustable, located in wiring compartment.

Electrical Rating:

120V, 60Hz, 3.1A.
