

## Surface-Mounted One-Bulb Heat-A-Lamp®

**MODEL: H910W**

### DESCRIPTION

- Easy-to-install heater ideal for apartments, motels and remodeled homes.
- Unique swivel base allows you to direct the radiant heat as desired.
- Ceiling plate mounts to standard junction box.
- Steel housing with durable white baked enamel finish.
- Uses **either** R40 type lamp (for light only) or 250W R40 infrared **heat resistant glass lamp** (lamps not included).
- Use standard on-off control switch (switch sold separately).

### DESIGN FEATURES

**Total Connected Load:** 250 watts.

**Lamp Watts:**

250 watts.

**British Thermal Units:**

853 BTU.

**Dimensions:**

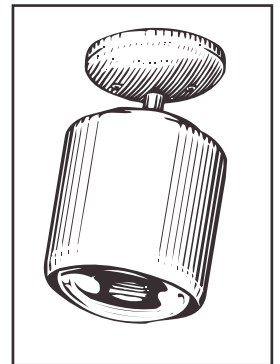

**Bulb housing:** 6" diameter.

**Overall height (including swivel):** 8¾".

**Ceiling plate:** 5½" diameter.

**Housing:**

Steel with baked-on white enamel finish.

### INSTALLATION

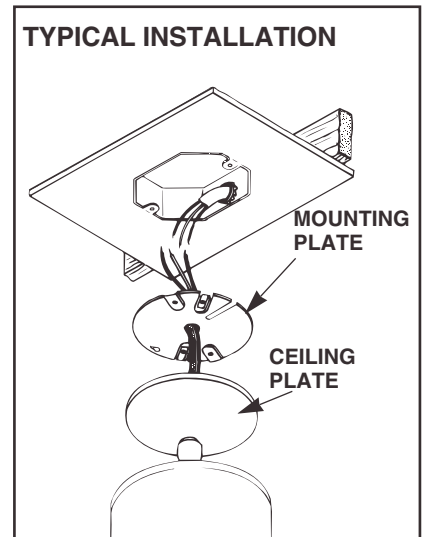

This unit is to be located in a ceiling, mounted to standard 4" junction box installed on a ceiling joist, or if necessary on a header between joists. Do not mount heater over tub or in shower stall enclosure. It may be wired to an existing lighting circuit, or run a 120vAC, 60 Hz, 15 Amp circuit through a wall switch to ceiling junction box (switch sold separately).
